ABOUT US

What is Accessible Jordan?

Whether you have a mobility impairment, are a senior citizen, or have a baby you push around in a stroller, sometimes you want to go to a place without having to worry about whether or not they have stairs, ramps or elevators for easy access. It is very difficult to find places that are equipped and accessible around Jordan but when you do it's like winning a prize!

Accessible Map serves as a guide to all places accessible around Amman and other tourist destinations in Jordan whether you're looking for a place to eat, a museum or gallery to visit, a tourist attraction to check out, an event to attend or more!

We also work with businesses, organizations and individuals to improve the accessibility of their spaces, events and experiences.

By bringing attention to places that are accessible, we hope to encourage and work with more places to improve their accessibility and become inclusive for all.

Goals

Raise Awareness:

We want to raise awareness about the challenges people with disabilities face when it comes to lack of accessibility and how it hinders their full inclusion in society. We also want to highlight how improving accessibility will help more than just people with disabilities.

Improve Accessibility:

We want to help improve the accessibility of spaces by offering solutions to accessibility issues, including working on the accessibility of workspaces, homes, restaurants, events, tourism sites and more.

Create A National Accessibility Database:

We want to create a database of all places accessible around Jordan to make it easier for people to find the places they can access depending on their needs.

SERVICES

GET VERIFIED!

There are over 33,000 places in the Accessible Jordan database. If you want your place to come up first in search results, be easier to find and stand out as meeting the Accessible Jordan's accessibility requirements, request our team to visit, assess and verify your place's accessibility and you will get the verified symbol next to your place's name!

CONSULTATION

Do you need help making your place, event or experience accessible? Accessible Jordan provides a variety of services to help you improve your home, business or event's accessibility. We can visit your place, assess it, and provide you with recommendations and a detailed accessibility report. We can also help connect you with the right people to implement these recommendations. This will help you increase your ratings on our website, reach more people and grow your customer or client base.

MARKETING & ADVERTISING

Want to reach more locals and tourists and grow your customer base? Let's collaborate! Use our website, social media platform and newsletters to advertise and market your accessible place, event or experience.

SUPPORT

We can help provide needed support to make your event accessible. If you're looking for support such as sign language interpreters, material in Braille, or assistance for people with physical disabilities, contact us. If you have a business that offers various types of experiences, we can provide the necessary support to make them accessible to everyone.

TRAININGS & WORKSHOPS

Accessible Jordan offers trainings and workshops on disability, accessibility and inclusion.
